

Hill Advisory Services invites you to attend:

- Wine & Cheese -

Harassment Awareness and Prevention

E-Learning Presentation

Harassment Awareness and Prevention training simplified

*We invite you to join us for wine and cheese,
a chat, and the opportunity to view a sample of our
NEW E-Learning training program*

Human Resource Practitioners – Don't miss this opportunity – learn how your organization can reduce costs and provide your workplace with the latest training techniques related to the harassment and discrimination area!

The full training program consists of Hill Advisory's four-hour Awareness and Prevention workshop, condensed to: eight 15 minutes modules; five case studies and a quiz related to the viewer knowledge at the end. It is a dynamic, interactive training program that can be viewed in a variety of ways: by individual participants working through modules as they have time; by teams reviewing a module for discussion purposes; by an employee and supervisor to refresh the employee's knowledge and understanding on a particular aspect of harassment or discrimination; or in orientation sessions. Some benefits include:

- A training program can be modified to suit your individualized workplace, with your Harassment Policy and provincial legislation referenced.
- Five case studies are 'in action' rather than in script
- Contents are completely Canadian-based
- Costs pertaining to this type of training versus the classroom training are significantly reduced

Location: The Citadel Hotel Halifax
1975 Broad Street

Date & Time: 5:30 pm, Wine & Cheese
